

Interparking - Parking Palais de Justice

Area: Namur
Property Interparking

Photo

Location: Place du Palais de Justice, 5000 Namur, Belgium

Description:

Interparking - Parking Palais de Justice :

As part of the big renovation program of the square "Place du Palais de Justice", the city of Namur has organized a call for tenders for the construction of a new underground car park. The challenge was to offer maximum parking spaces in a small area, surrounded by historic buildings. The project submitted by Interparking (in collaboration with Assar, Degraeve - Duchêne and the engineering agency Greisch) was selected by the local authorities.

This project will include 5 underground floors, for a total of 404 parking spaces. Urban development on the surface using natural materials will contribute to the conviviality of the place. The construction is planned to start in mid 2019, with opening in 2021.
