Description:

## **Ecopole:**

The Ecopole is a new economic hub, totally committed to the philosophy of sustainable development. The park will host companies but also training and research centers.

The park has an ideal location and accessibility thanks to its multimodal transport facilities: direct access to highway and waterway network, ten minutes from Brussels South Charleroi Airport. Negotiations are underway with local and foreign companies. This project is born thanks to a European co-financing.

## **Surface area**

300 hectares (741 acres)

## Seeking

Focused on the philosophy of sustainable development, the Ecopole will welcome companies that integrate its principles into their products, services, manufacturing processes, buildings and/or organizational methods.

## Timing

Available
