Tubize - percel to redevelop (former farm building)

Percel with excellent visibility to redevelop for retail, food, sport, services... situated at the entrance of the Tubize Business Park (70 companies with more than 1000 employees), 2 km away from the city and

alongside the future bypass (contournement de Tubize). ...Actual building to be removed and replaced by a brand new projet. The vicinity of the park and the city makes of the 1.5ha percel a great place to invest in.
