## TRAKK :

The TRAKK is a creative hub, supported by 3 partners : BEP, KIKK and University of Namur. The space, split across 3 floors, is a meeting space for different profiles and projects, offering the opportunity to rent an office space – private or within open spaces - , creative meeting rooms, an arena, and to access a fablab and its digital tools to materialize a project or attend any conference related to innovation. The TRAKK is an open community : a network of enterprises and entrepreneurs of the cultural and

creative sector, artists, developers, designers, students, researchers, engineers, creative coders, makers, hackers but also green projects... All thriving to work together on concrete projects in order to bring solutions to challenges of the everyday life and environment. TRAKK is currently envision the futur with the new regenerative economy, working as a transition lab for such initiatives.

At their disposal : office space / coworking space / creative rooms / arena space / innovation workshops / cooperation programs / fablab. The development of residential spaces is also in a conception phase through the reconstruction of ""the city op the city"" principle: by demolishing old buildings based on circular economy and the construction of at least 4000 m<sup>2</sup> of new buildings with an underground parking.
